HARMONIC TEMPLE

"The Harmonic Temple" is a remarkable collection of four part harmony chants with texts coming from various spiritual traditions and composed by Nickomo himself. Singing these chants in a group is uplifting and inspiring - as if you are part of a living temple of sound. You don't need to read music or be an expert singer to experience this special ambience.

Nickomo is renowned for his energy and clarity, and the ability to produce that special ambience from singers of all levels of ability. He currently co-leads the 120-voice People of Note community choir in Bristol, and the Frome Community Choir. Rasullah, who also teaches voice and Dances of Universal Peace, will support Nickomo and help the group learn the parts.
